ABOUT NEXT DESIGN — TERRA COLLECTION

Terra Collection is Next Design's line of furniture built around solid ash wood, hand-finished bronze, natural stone and premium upholstery. The name reflects what ties every piece together: materials drawn from the earth, left honest and visible in the grain, the patina, and the weight of each object.

This catalogue brings together chairs, tables, seating and casegoods selected for their craftsmanship, their proportion, and their ability to feel at home in a wide range of interiors — from warm, minimal residences to considered hospitality spaces. Every product is organised by category, with full dimensions and material specifications, so that specifying and sourcing is simple from first look to final order.

For pricing, lead times, and trade enquiries, please reach out using the contact details alongside.
