

JUNZI

COLLECTION

NEXT DESIGN · MODERN ORIENTAL LIVING

ABOUT THIS COLLECTION

The Junzi Collection

Junzi (jun-zì) describes a person of quiet integrity and refined character — someone whose bearing needs no announcement. It is the same quality we look for in a piece of furniture built to live in a home for decades: restrained in form, generous in comfort, and unmistakably well made.

Drawing on the proportions and material honesty of classical Chinese furniture-making, the Junzi Collection reinterprets those ideas for contemporary living — solid North American black walnut frames, full-grain leather upholstery, and hand-finished detailing throughout. Every piece is built to furnish a room with the same sense of calm it is meant to hold.

How to read this catalogue: Each product is listed with an individual Next Design SKU in the format **NDCST-JUN-XXX**. Dimensions are given in millimetres (W × D × H). Pieces marked **MODULAR** are sold as individual units, to be combined to configure your own layout. Where a category includes more than one material option, each piece notes its material directly beneath the dimensions.
